

Hello,

I do not support GMO, It has been released into my ecosystem and my food source without my ok - I want to make an informed choice as to what goes into my body and my family's bodies.

If a product has GMO in it - if it is GMO derived, or its ingredients ingredient is derived from GMO I want to know about it.

**"MAY CONTAIN TRACES OF GMO"** should be on anything that is derived from GMO or processed on machinery that processes GMO or uses a starch that may have GMO in it or uses a starch that may use a binder which may have GMO or uses anything that may have been grown in GMO agar plates.

If an apple is grown using the GMO grafting product NO GALL I WANT TO KNOW ABOUT IT.

If a zucchini has been grown using GMO seed stock I WANT TO KNOW ABOUT IT.

If a fish is created using GMO technologies I WANT TO KNOW ABOUT IT.

If milk is produced from RGBH treated livestock I WANT TO KNOW ABOUT IT.

I did not okay GMO I do not want it on my table.

Thank you.

Patricia Devereux
